Personal Statement

Enthusiastic Computer Science student specialising in AI and Data Science in Gyalpozhing College of Information Technology, Bhutan. My expertise in AI, Machine Learning, Natural Language Processing, and Frontend Development, combined with strong problem-solving skills, allows me to build intelligent and user-friendly applications. This enables me to seamlessly integrate into teams and contribute to developing innovative, impactful solutions.

Skills

Technical Skills

- **Programming Languages:** Python
- **Frontend Development:** React.js, Tailwind CSS
- **UI/UX Design:** Figma
- **Version Control:** Git (GitHub, GitLab)
- **AI & Machine Learning:** ML, NLP, LLMs , RAG
- **Data Science:** Data Analysis, Data Visualization
- **Tools & Libraries:** Pandas, NumPy, Matplotlib

Soft Skills

- Communication
- Teamwork
- Time Management
- Continuous Learning
- Problem-Solving

Education

Gyalpozhing College of Information Technology, Bhutan

2022 - 2026

Bachelor of Science in Computer Science (AI and Data Science)

Major Courses:

- Data Analytics and Visualization (CSA 202)
- AI and Machine Learning (CSA 203)
- Deep Learning (CSA 301)
- Advanced Deep Learning (CSA 401)
- Natural Language Processing (CSA 402)

Losel Gaytsho Academy, Bhutan

2020 - 2021

High School

Pure Science Student (Mathematics)

Experience

Work Experience

NoMindBhutan (Startup) | Thimphu, Bhutan Jul 2024 - Present

Founding Engineer | Frontend Developer

- I contribute to Frontend development, create designs in Figma, and help manage emails and social media. I support the team across multiple areas to ensure smooth product and communication workflows.
- Featured in Bloomberg, Rest of World, BBS, Kuensel.

Leadership Experience

Year 4 Autumn Semester AI B | GCIT Aug 2025 - Dec 2025

Class Representative (CR)

- Served as Class Representative, acting as a liaison between students and faculty
- Coordinated class activities including sports, events, and other extracurricular engagements
- Led and organized class responsibilities such as participation, cleanliness, and overall coordination

GTech Club | GCIT Aug 2023 - Mar 2024

Club Coordinator | Club Treasurer

- Managed club budget, billing, and financial records
- Coordinated events and member activities
- Ensured smooth operations and organized club logistics

Volunteer Experience

International Week of Deaf 2025 Fundraising Event 21-22 Sept, 2025

Organized by the Disabled People’s Organization of Bhutan

- Volunteered in the International Week of Deaf 2025 Fundraising Event, supporting event preparation and setup
- Assisted in organizing activities, including cleaning, arranging materials, and creating games

Projects

RAG Chatbot for Anti-Corruption Commission of Bhutan (PRJ404) Aug 2025 - Dec 2025

UI & Frontend Developer

- Developed the UI and frontend for a secure on-premise RAG chatbot for the Anti-Corruption Commission of Bhutan.
- Improved information retrieval speed by ~50–60% and reduced manual document search time, enabling faster investigation workflows.

RAG for National Land Commission Secretariat (PRJ303)

Feb 2025 - Jun 2025

AI Developer

- Developed a Retrieval-Augmented Generation (RAG) chatbot to help manage and retrieve historical land records.
- Reduced record retrieval time from up to **3 weeks to about 3 seconds**, significantly improving operational efficiency.

DrukBrain Scan (PRJ202)

Feb 2024 - Jun 2024

AI Developer

- Built an AI-based brain scan analysis system for MRI images, achieving **~85–90%** accuracy in detecting abnormalities using ML and DL models, reducing preliminary diagnosis time
- Developed as a second-year semester project to support faster and more accurate preliminary medical diagnosis.

Bhutan Agrifood Trade and Investment Forum (BATIF)

2024

Frontend Developer

- Built the official event website to present forum details, schedules, and participants
- Implemented responsive and visually engaging UI for better accessibility

Semthuen Zhidhay Zhabtok Website

2024

Frontend Developer

- Developed a website for Semthuen Zhidhay Zhabtok, a youth group initiative aimed at spreading a social movement to help individuals across Bhutan.

Zeebar Resort Website

2024

Frontend Developer

- Developed a responsive website for a resort in Samtse using React.js and Tailwind CSS
- Designed user-friendly UI to showcase services, facilities, and booking information

Certifications

Google UX Design, Coursera

2026

- Gained hands-on experience in user-centered design, including wireframing, prototyping, and usability testing.

AWS Cloud Foundation, AWS

2024

- Acquired foundational knowledge of cloud computing, core AWS services, and basic cloud architecture principles.

Take Better Decisions Thanks To Critical Thinking, Udemy

29 Spet, 2023

- Developed critical thinking and decision-making skills for analyzing problems and making informed choices.

Scrum Master Certifications 2023 + Agile Scrum Certification, Udemy

28 Sept, 2023

- Gained knowledge of Agile principles, Scrum framework, sprint planning, and team collaboration practices.

Business Fundamentals: Marketing Strategy, Udemy

13 Sept, 2023

- Learned core marketing concepts including market analysis, positioning, and strategic planning.

Java Basics for Beginners: Learn Coding with Java, Udemy

21 Aug, 2023

- Learned core Java concepts including syntax, OOP principles, and basic problem-solving using Java.

Speak Like a Pro: Public Speaking for Professionals, Udemy

17 Aug, 2023

- Developed skills in effective communication, presentation delivery, and audience engagement.

Awards and Recognition

Best Project Showcase

2025

- Awarded Best Project Showcase among all 4th-year students at the School of Computing (SOC) for the National Land Commission Secretariat RAG project.

Legal Aid Hackathon Runnersup

2024

- Runner-up, Hackathon on Database Management Systems for the Legal Aid Center, organized by UNDP Bhutan.

Girls in ICT Project Showcase Winner

2024

- Awarded first place at the Girls in ICT Project Showcase, a girls-only program organized by Women in STEM.
- Presented SherigAI, an AI-powered educational platform with the AI tutor Nola, recognized for innovation and impact.

GCIT X TashiCell Hackathon Winner

2022

- Developed a customer service chatbot for TashiCell, reducing customer call center workload and improving response efficiency.

Participations

She Leads She Inspires (SLSI)

18 Mar - 5 Apr, 2023

- Participated in the She Leads She Inspires Bhutan (SLSI) Mapping Project, collaborating with students from multiple colleges.
- Contributed to mapping and documenting health facilities across Bhutan for improved accessibility and data availability.

- Participated in the Bhutan Venture Challenge, a 4-month entrepreneurial competition.
- Collaborated with a team to develop and submit a business report.
- Developed MarketMate, a platform connecting local vendors with buyers.
- Gained valuable experience in business strategy, pitching, and teamwork, despite not winning.

Language

- Dzongkha (Native)
- Sharchop (Mother Tongue)
- English (Professional Working Proficiency)
